

Doctoral Meeting: «Ensemble and choice modelling for recommending items»

Data: venres, 13 outubro, 2017 - 10:00 - 10:30

Lugar: CITIUS Assembly Hall

Poñente(s): Ameer Ali Almomani (Predoctoral Researcher)

Idioma: Inglés

Streaming: Por confirmar

Ensemble and choice models are proposed to overcome some of the limitations found in simple or traditional approaches for recommending items, considering they provide more accurate predictions.

This presentation will analyze choice based models and collaborative ensemble models comparing them when applied to the task of recommending items.
